From the Columbia (S. C.) Daily Telegraph. MR. PERRY'S REPORT.

Senate, on Monday last: The Committee on Federal Relations, to Message as relates to the Mexican War, and their own words, "the most Christian nation" etable Pills are certain to put an immediate stop the resolution offered on the same subject by of the world. the Honorable Senator from Union, have given this deeply interesting and important question that consideration which it so justly merits, and would most respectfully report-

That in order to present the justice and propriety of this war, on the part of the United States, in its true light, it becomes necessary Mr. Clay says: to refer to the circumstances which induced Mexico, in her folly and arrogance, to com-

mence hostilities. It is well known that great inducements were offered American citizens to settle in Texlands, were permitted to form a free represenhad secured to them all those civil and political rights which they had enjoyed in the land and happy. But, by one of those sudden re- sation in territory, Mr. Clay adds: bad in their veins Anglo Saxon blood. They his common children ?"

the Neuces to the Rio Grande, was done by themselves are not agreed. the advice of Gen. Taylor, and with a view of repelling the threatened invasion of our soil by the Mexican army. The right of the President to take this step, and the propriety of it, can now hardly be doubted.

Confident from his superior numbers of an easy victory, the Mexican General crossed the river, and commenced the war in obedience to the orders of his government, which were afterwards found amongst his papers. The result was the victories of Palo Alto and Resaga de la Palma, and the total rout of Gen. Arisla and the Mexican forces.

Had Gen. Taylor or the President been content with these victories, and have waited for the enemy to recruit his strength and select his own time for another attack, it would have been a most culpable abandonment of all the advantages obtained by those hard fought battles. The policy of war, as well as our national honor, demanded an invasion of Mexico, and a continuance of the war until she sued for peace, or her armies were annihilated, and the country overrun. This has been done triumphantly and gloriously. The annals of history scarcely afford a parallel to that brilliant succession of victories and gallant achievements which have crowned our arms in Mexico with imperishable honors, and shed a hato of glory around the American name.

Having conquered the country, it now becomes a question of policy, whether to contime in possession of the whole of Mexico, or retain only so much as may be an ample indemnity for the expenses of the war. This question must necessarily be left to the President and Congress to settle, and your Committee feel confident, that they will pursue that course which honor, patriotism and wisdom may dictate. Should circumstances render a vigorous prosecution of the war necessary, South Carolina will be found, as she ever has been, ready to sustain the true interests, national honor and glory of America. Your committee therefore recommend the

adoption of the following resolutions. All of which is respectfully submitted. B. F. PERRY, Chairman pro. tem.

Resolved, That the present war with Mexiso, having been commenced by an invasion of our soil and the slaughter of our countrymen, the United States were not only, bound by their national honor-to repel the invaders, but w to justifiable, on every principle of public policy, in carrying the war into the enemy's own country, and prosecuting it with vigor, until he sued for peace, or the country was overrun and subjugated by our gallant army. Resolved, That having conquered the repub-

lic of Mexico and annihilated her armies, and she still refusing all overtures for an honorable peace is now become a question of policy on the part of the United States, whether to continue in possession, until a treaty can be formed, of the whole country, or occupy only so much as may be an ample indemnity for the expenses of the war, and the demands of our citizens against the Mexican government. MEXICAN TERRITORY As the resolutions adopted at the Lexington meeting pass forth toward the extremities of the country, the public press expresses the undement which they receive. We have not vet seen a single democratic paper that beslows any favor upon the idea of rejecting acquisition of Mexican territory. On the other hand the whig press express a divided sentiment. In every section of the country, there are some whig presses that avow their hostility to such a proposition, whilst the majority are gradually ranging themselves for the re-

jection of all territory. Nothing is more common with the whig parpare with the conduct of these foreigners sale. Trade has commenced briskly. whom they estimate so highly. THE subscribers hereby inform the public that L their Negroes, employed in the Turpentine business in Brunswick County, are in the babit of going down to Beaufort County, under the pretence of having been sent by their owners. This is to place all persons on their guard against such impositions. We never permit our Negroes to leave home on any
